

## Significance of Akshaya Tritiya

This auspicious year, named "Vishwasu," began with a rare conjunction of six planets. After 30 years, Saturn has entered the sign of Pisces. Due to Saturn's influence, the effects of Sade Sati will be intense for those with Aquarius, Pisces, and Aries signs. Especially for Aries, as Sade Sati has just begun, Saturn will "sit on their heads" for two and a half years. This will lead to ego, excessive desires, mental sluggishness, intense attachment, intense anger, and frustration, causing them to lose all their wealth by not listening to anyone. For Pisces, Saturn will sit on their chest, on the Anahata Chakra. With Saturn in their birth sign, they will disrupt their lives with wrong decisions, mental anguish will increase, they will separate from loved ones, and their hearts will be filled with sorrow and tears. For Aquarius, with Saturn in the second house (the house of wealth), this is the last two and a half years of Sade Sati. During this time, Saturn will create disappointment in life and indicate the path of Dharma, but the mind will not accept it. They will learn many lessons while suffering. Therefore, to overcome the effects of Sade Sati, they desperately need the grace of Jagadamba. Therefore, those with Aquarius, Pisces, and Aries signs must perform the Mahalakshmi Yagya on this Akshaya Tritiya and receive the blessings of the Mother.

### **Significance of Vishwasu Nama Samvatsaram**

This year is auspicious for the Vasus. The eight Vasus are incarnations of the grace of Ashta Lakshmi Devi. It will be good to see the smiling face of that Mahalakshmi Devi in your home during festivals like Shravan Shukravara Vratam, Mangala Gauri Vratam, Diwali Mahalakshmi Puja Vratam, Kojagiri Purnima Vratam, and various Vratams in the Kartik month. Therefore, this time we are giving the divine face of the Mother studded with rubies and emeralds as Prasad to everyone. By paying an additional ₹5116/- along with any of the puja packages given below, you can receive the Mother's face as Prasad.

Which zodiac sign will get luck from this Akshaya Tritiya?

After 12 years, Jupiter is entering Gemini on May 15. This will improve the chances of financial gain, fame, and fulfillment of desires for those with Taurus, Leo, Libra, Sagittarius, and Aquarius signs. However, this is according to the transit. If a planet is not well placed in the birth chart or if the Dasha-Antardasha is not favorable, the coming luck may not come due to our ignorance, foolishness, not listening to others, or lack of courage. But if there is the grace of the Mother, and if the Lakshmi Kubera Samputita Yantra is in your home, and if you meditate on that Yantra daily, obstacles will be removed, and luck will come with the grace of the Mother. Therefore, these five signs must perform the Shri Mahalakshmi Yagya on this Akshaya Tritiya for their fortune. If they are unable to perform the Mahalakshmi Yagya, they should participate in the Sahasra Kumbhabhishekam and invite the Mother's Kalash to their home.
